

WORLDWIDE FACILITIES, LLC

Goes Live with I-Engineering's ALIS Enterprise System

A Next Level Agency Management System Launched by an Elite Wholesaler in CA

Shelton, CT, June 21, 2016 – I-Engineering, Inc. is pleased to announce the launch of the All Lines Insurance Suite (ALIS) Enterprise System with Worldwide Facilities, LLC, a national wholesale brokerage and managing general agent with a 5-Star MGA Rating. ALIS is the next generation Agency Management System, providing a fully integrated Rating Engine with Web Services, Policy Issuance and Management, Renewals, Endorsements, Cancellations, Reinstatements, Claims, Workflow, Document Management and Reporting, as well as a full Accounting module. ALIS streamlines the entire insurance cycle. This system can be interfaced with third party systems via API or XML transfer.

Ron Austin, President of Worldwide Facilities, commented, "ALIS Enterprise System is designed to provide flexible programming capabilities to serve our organization as we add new products and services to our offerings. This programming flexibility gives us the opportunity to serve our business partners in a more efficient and effective manner. ALIS helps in daily management activities with its powerful reporting capabilities and effective maintenance of agents and carriers. Our agents and brokers can offer a broader range of solutions to their customers in a shorter period of time."

Cameron Kelly, CFO of Worldwide Facilities explains, "We selected I-Engineering due to their knowledge and commitment to the industry. I-Engineering has developed certain functions which are significant enhancements for wholesale brokerage operations, such as an increased level of Integration with Outlook, a more efficient method of Merging and Importing Documents, Batch Processing for Submissions and Renewals, Follow-ups tied to Correspondence, as well as other efficiencies. The features such as Dynamic Quote Designing and an Interactive Income Statement are powerful business tools. I-Engineering implemented replication for the entire system to facilitate accurate data representation between multiple offices and make it easy to maintain with cost effectiveness. They work with us and our carriers to streamline web services integration and automate policy issuance processes. Their solution assimilates with our carriers in a unique method which only enhances our business."

Naval Kapoor, President and CEO of I-Engineering says, "We began a strong working relationship with Worldwide Facilities with the concept of designing and creating an entirely new wholesaler system, having all necessary binding and brokerage operations for achieving greater efficiency. Worldwide Facilities contributed to our knowledge of the insurance industry and we have been able to produce for them ALIS, an all in one Agency Management System, having capability of doing both binding and brokerage business with extreme efficiencies and automations of many processes."

Kapoor continues, "We are proud to have worked with Worldwide Facilities in providing them with this state of the art technology to make their operations more efficient. With the use of this cutting edge system and our dedicated team of professionals, I-Engineering, Inc. is bringing the insurance industry to heights previously unimaginable. We were honored to have the opportunity in working with Worldwide Facilities to develop and implement this innovative program."
