

Encore Special Risks, LLC
Goes Live with I-Engineering's ALIS Enterprise System
A Next Level Agency Management System Launched by an Elite MGA in TX

Shelton, CT, February 1, 2017 – I-Engineering, Inc. is pleased to announce the launch of the ALIS Enterprise System with Encore Special Risks, LLC. of Dallas, TX. Encore Special Risks has launched multiple programs including Texas Preferred Homeowners, Motor Truck Cargo and Auto Physical Damage during this initial phase. Encore has partnered with I-Engineering to add more programs in the near future. I-Engineering's ALIS is the next generation Agency Management System which provides a fully integrated Rating Engine with Web Services, Policy Issuance and Management, Renewals, Endorsements, Cancellations, Reinstatement Claims, Workflow, Document Management and Reporting as well as a full Accounting module. This system can be interfaced with third party systems via API or XML transfer.

ALIS went live in June 2016 at Encore Special Risks with programs such as Motor Truck Cargo and Auto Physical Damage. Encore Special Risks added a new program, Texas Preferred Homeowner HO-B to the system to further service their agents in February 2017. Encore Special Risks plans to add more programs to its ALIS System in the near future.

Rob Arnold, President and Managing Director of Encore Special Risks, shared that I-Engineering and their ALIS System Platform, has allowed Encore Special Risks to quickly bring new products to market and therefore, service their agents very efficiently. "We are thrilled to have ALIS up and running as our technological foundation here at Encore," Arnold said. "ALIS gives us the framework to serve our business partners with speed and efficiency, giving them the highest level of service and attention to detail. Providing submission clearance, rating, policy issuance and financial accounting, the ALIS platform will give us flexible programming capabilities as we continue to expand our business and services."

Michelle Ward, Personal Lines Underwriting Manager of Encore Special Risks, explains, "I-Engineering has worked closely with our team to understand our needs and develop software solutions that modernize our operations. With a streamlined internal process and impressive functionality, ALIS is a powerful agency management system that can grow with us. And, we look forward to working together on future programs."

Jo Anna Dollarhide, Encore's Systems Administrator and Tammy Summers, Vice President of Transportation, shared how they are impressed with the features of ALIS. "The I-Engineering system affords our retail agency partners 'real time' premium indications and efficient electronic delivery of policies that are unparalleled in the insurance industry," Dollarhide said. "The I-Engineering system capabilities are ever expanding," added Summers, "creating a vibrant production atmosphere for our Encore Special Risks agency force, offering immediate access to our exclusive MGA products."

Naval Kapoor, President and CEO of I-Engineering says, "We are proud to have partnered with Encore Special Risks to develop a comprehensive and intuitive agency management system with the technological features and functionality to launch them in to the preferred admitted and non-admitted market. We strive to provide our clients with the highest level of customer service from our first introductory meeting, to building their system and going live. But our team does not stop there, as we are always here with our vast industry expertise and support as our clients' needs change. Our work with Encore Special Risks has been very rewarding. With our customizable agency management system, ALIS, as their technology foundation, we look forward to serving as a vital component of their continued success."
