

The Insurance Center is Live with I-Engineering's ALIS Enterprise System The Premier Agency Management System Launched by an Alaskan Managing General Agency

Shelton, CT, June 11, 2019 – I-Engineering, Inc. is pleased to announce the launch of the ALIS Enterprise System with The Insurance Center, a locally-owned Managing General Agency based in Anchorage, Alaska. The Insurance Center handles a large variety of risks and has selected I-Engineering's ALIS system as its one source technology solution. The ALIS platform offers MGAs, Wholesalers and Program Administrators the ability to fully automate all insurance business processing, including the submission process, rate, quote, bind, policy issuance, accounting, claims, document management and reporting. Built around a sophisticated rules engine, I-Engineering's web-based system allows users to process business according to their customized workflow. I-Engineering's ALIS solution is adaptable and can expand exponentially as The Insurance Center continues to grow in the future.

Joshua Korver, President of The Insurance Center, is impressed with the ease with which his business was able to transition to the ALIS platform. "ALIS is a much easier system to learn than what we were previously using. I-Engineering has created a much easier interface experience and a lot of tasks have been simplified," Korver said. "The benefits of the ALIS platform are almost too many to enumerate. They have vastly changed the operations of my particular agency."

"Because we are smaller, I don't have an in-house I.T. person," Korver explained, "I had to lean a lot more heavily on my implementation manager and my account manager at I-Engineering. Their customer service is top notch. With their support and technical expertise, we were up and running much quicker than I had anticipated."

Naval Kapoor, President and CEO of I-Engineering said, "Working with The Insurance Center to bring them the ALIS system has been very gratifying for our team. It is exciting to know I-Engineering's intuitive agency management system is already having a huge impact on the quality, speed and efficiency of their business. We are pleased to serve as their technology foundation with ALIS as the solution to meet all of their encompassing technology needs. Everyone at I-Engineering strives to provide our clients with the highest level of customer service and we look forward to serving as an important part of their continued growth and success."

About The Insurance Center
